RUDOLF ZIESENHENNE
Begonia Specialist
1130 North Milpas Street
Santa Barbara, California

PRICE LIST -- OCTOBER 1952

The following begonias are available for immediate shipment. If you are interested in a begonia not mentioned, please contact me as I may be able to furnish it. Prices are at Santa Barbara, cash with order (i.e., parcel post or railway express charges must be added on mail orders.)

RHIZOMATOUS BEGONIAS

- X Baby Brown -- Ziesenhenné hybrid, a miniature Fred Brown; chocolate brown, small, heart-shaped leaves; suitable for terrarium or indoor culture. \$1.00 each.
- Boweri -- small-leaved, suitable for the terrarium; leaves lettuce-green with black markings along the edge, where long hairs stand erect. \$1.50 each.
- Boweri major -- same as above, but larger in every way. \$1.50 each.
- Brooks' Mottled Leaf -- chocolate brown, with light-green veins, red-backed leaves to about 5 inches. Lovely clusters of white blooms. A distinctive species from Mexico. \$1.00 each.
- Bunchi -- like Feasti (which follows) but edges of leaves have lobes. \$1.00 each.
- conchaefolia -- peltate, spoonshaped leaves, green. 75¢ each.
- Feasti -- one of the sturdiest plants for indoor culture; the old-fashioned "beef-steak begonia". Cymes of pink flowers in spring. 75¢ each.
- X Green Skeezer -- my hybrid; grows compact like Skeezer but leaves green. \$1.00 ea.
- hispidavillosa -- lettuce-green leaves, long hair all over plant; fall blooming, with pink flowers, \$1.00 each.
- X Immense -- a light-green leaved plant; pink flowers in clusters in winter. 75¢ ea.
- X Jimmie Decker -- Ziesenhenné hybrid; thick green leaves up to 18 inches in diameter; pink flowers in spring and winter. \$1.00 each.
- X Joe Hayden -- satiny black leaves, lobed. A beautiful Ziesenhenné hybrid which has won prizes in many shows. \$1.50 each.
- hydrocotylaefolia -- miniature, leaves up to 3 inches, growth similar to Feasti. Suitable for indoor terrarium culture. 75¢ each.
- MacDougalii -- large, deep-green, compound leaves; tall stems with greenish-white flowers. \$1.00 each.
- manicata -- thick green leaves with red cuffs on the stems; pink flowers in clusters in winter. \$1.00 each.
- manicata white cuff -- like manicata but with greenish-white cuffs. \$1.00 each.
- manicata cristata -- like manicata but crested on edge of leaf. \$1.50 each.
- manicata cristata aurea -- like above, only with yellow spots on leaf. \$2.00 each.
- X Mexican Hybrid with deep pink flowers -- undoubtedly a hybrid for it has not produced seed in 10 years. An excellent plant. \$1.00 each.
- X Mexican No. 27.S -- a hybrid group with thick leaves and tall flowers stems. Leaves lobed and marked with silver. Very satisfactory house plant. \$1.50 ea.
- Mexican No. 242. S -- green-leaved; clusters of white flowers. \$1.50 each.
- Mexican No. 1327 -- an unidentified plant with olive-green leaves with deep red back. An outstanding plant. \$1.50 each.
- X Mrs. Townsend -- dark, blue-green star-shaped leaves, not deeply lobed. An old favorite for indoor culture. 75¢ each.
- nigricans -- light green star-type leaves with black along margin. 50¢ each.
- X Reichenheimi -- star type; leaves with brownish cast. 75¢ each.
- pyramidalis -- Saunderbrucki type, but with light green leaves. 75¢ each.
- Spiral Feasti -- like the famous Beefsteak Begonia but with the leaves spiraling up like a snail shell. \$1.00 each.
- squarrosa -- leaves shaped like Feasti, but with scaled stems and thin in texture & a lighter green, white flowers in clusters. 75¢ each.
- strigillosa -- light green with dark brown small markings; robust, good house plant. \$1.00 each.
- X Saunderbrucki -- star type, leaves with black margins. 50¢ each.

FIBROUS BEGONIAS

- African species with long narrow thick leaves. New. \$1.00 each.
- X Chiala -- dark green leaf with red underside, pink flowers; upright, stately growth. 75¢ each.
- X Corabel de feu -- small leafed with coral flowers, reminiscent of bedding type, but not one. Low growth. 75¢ each.
- foliosa -- smallest-leaved species with minute orange blossoms; used in baskets like maiden hair fern or can be staked up. 75¢ each.
- X Lady Waterlow -- a must in every collection; rugged, everblooming white. 50¢ each.
- X Luwalter -- my hybrid between incarnata and Mazae; growth and leaf similar to incarnata but very dark brown. 75¢ each.
- X multiflora rosea -- a rugged plant with rose-colored flowers and very small leaves. 50¢ each.
- X Thurstoni -- shiny, green leaves with brownish cast, red back. 50¢ each.
- undulata -- white flowers, light green leaves with wavy margin, graceful upright growth. 75¢ each.

FIBROUS BEGONIAS WITH THICK STEMS

- X Bessie Duxton -- leaves shaped like Feasti, but smaller. Upright growth, with large clusters of pink flowers. 75¢ each.
chivatoa -- Mexican species with pink flowers; lobed leaves, red margin. \$1.50 ea.
Florida species -- large green leaves; flowers pure white in clusters. 75¢ each.
X Jessie -- winter bloomer; pink flowers; an old favorite which produces little leaves on the leaves and stems. 75¢ each.
Kellermanni -- white frost on leaves; flowers pink. 75¢ each.
Kenworthyi -- angular leaves with pinkish-grey cast; takes dry conditions well; a good house plant. \$1.50 each.
X pseudophyllomania -- similar to Jessie but the leaves are green and lack the brownish cast. 75¢ each.
X Rudy -- hybrid of Florida species X Ludwigii. Lobed-leaf, covered with silver. Growth like Ludwigii. \$1.00 each.

HAIRY-LEAVED FIBROUS BEGONIAS

- X Alto Scharff -- red-backed leaves, covered with fine, white hairs. \$1.00 each.
Fernando Coastal No. 2365 -- new Brazilian species, entirely covered with long hairs; large leaves; plant holds clusters of large white flowers erect. \$1.50 ea.
X Neely Gaddis -- large, velvety leaves, red beneath; flowers pure white. 50¢ each.
Haageana -- nice, bushy plant having clusters of large white flowers with reddish hairs on back. 75¢ each.
Scharffiana -- low grower; husky dark-green leaves, deep-red back; a good basket plant. \$1.00 each.
tomentosa -- light-green leaves, covered with white hairs; white flowers produced in the fall. 75¢ each.
X Viaude -- a very fine hairy-leaved type with long, narrow leaves; white flowers on erect stems. \$1.00 each.

TRAILERS

- epipsila -- similar to sanguinea; a good, late-winter bloomer; flowers white. \$1.00
Florence Carrell -- similar to glaucophylla but will grow under cooler conditions. Flowers pink. \$1.00.
X Elsie M. Frey -- dark bronzy green leaves, deep pink flowers. More compact than Florence Carrell. \$1.00 each.
Francisii -- thick green, peltate leaves; white flowers. Nasturtium-like growth. \$1.00 each.
glaucophylla -- smooth, light green leaves with coral-red flowers. \$1.00 each.
X Marjorie Daw -- leaves like the angle-wing, cane type begonias but a true trailer. Dark pink flowers in clusters. \$1.00.
Mazae variety Stitched Leaf -- leaves green, veins along margin black. \$1.50 each.
X E. O. Orpet -- excellent trailer; hardier and leaves larger than glaucophylla; leaves bronzy green with red backs; flowers coral red. \$1.00 each.
X Pauline -- new, basket type; leaves light green; flowers apricot. \$1.00 each.
scandens-green, shiny leaves, with white flowers. \$1.00 each.

FANCY-LEAVED BEGONIAS

- acida -- rough, hairy, light-green leaves; white flowers on long stems. \$1.00 each.
imperialis -- hairy, small-leaved, green zoned with brown-green; creeping stems. \$1.00 each.
imperialis -- like above but without markings; emerald green. \$1.00 each.
X It -- Rex-like plant, with green and silver leaves; flowers pink. \$1.00 each.
X Murial Day -- a Ziesenhenné hybrid, green leaves with silver markings. \$1.00 ea.
pustulata variety Silver Leaf -- leaves with tiny pustules on the upper surface from which protrude hairs; larger and sturdier than imperialis; leaves light green with silver along the veins and brown between the veins. A most striking plant. \$1.00 each.
pustulata variety Light -- leaves light green with light brown between veins. \$1.00
pustulata variety Dark -- leaves very dark brown-green with spots of light green at the junction of the veins. \$1.00 each.

FIRST INTRODUCTIONS

Brooksii -- Listed above as Brooks Mottled leaf. A new Mexican Species.

Begonia hepatica-maculata -- a rhizomatous begonia with rather thick leaves which are light green and heavily blotched with liver-colored markings.
An outstanding new Mexican Introduction by Mr. Macdougall. \$1.50.

The first part of the report deals with the general situation of the country. It is a very interesting and informative study of the country's history and its present state.
